Changing the future of education.

QuaDucation

The destination for leaders who seek to change the world

COMPANY PROFILE

QuaDucation is a company founded in the United Arab Emirates by a group of education specialists with a strong proven record of educational support, consultancy and development in the Gulf region and United Kingdom. The company professional specialists come from wide experience working with OFSTED, ADEK, SPEA, KHDA, and Ministry of Education in UAE. QuaDucation professional team have supported schools' development throughout UAE and UK improving their evaluation ratings.

QuaDucation provides educational consultancy to all types of schools in private and government sectors from kindergarten to secondary levels. I addition, the company has proven experience in a wide range of curriculum programs including Ministry of Education, UK, US, CBSE and many others.

QuaDucation also provides professional support for academic and non-academic staff members, which includes teacher training programmes, operational support, and management consultancy. In addition, QuaDucation provides pre-school inspection services to prepare schools for formal evaluation conducted by educational entities across UAE.

QuaDucation

vision

To be a reliable source of effective educational consultation and support.

Mission

To provide high quality and affordable educational consultation and guidance to help schools reach the highest national & international standards.

Core Values

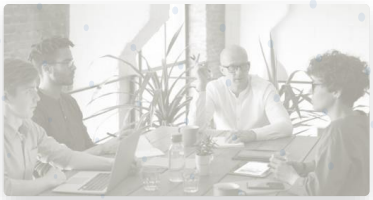
- Maintaining the highest education standards.
- Promoting innovative cultures in all educational institutions.
- Empowering all stakeholders for effective engagement.
- Disseminating leadership skills across all levels of staff.
- Providing the best consultancy for management.
- Recruiting the best and the highest expertise worldwide.

OUR SERVICES

At QuaDucation, education is seen as the main factor of community sustainability, sustainable economic, social and human development. In this regard, education is the fundamental element structuring the capacity and development skills through obtaining qualification, technological progress, and the ability to harness human resources of a country.

At QuaDucation we are providing the following services :

- School professional consultation and development.
- Professional and comprehensive staff training.
- Operations and management guidance.



School Professional Consultation & Development.

QuaDucation provides pre-inspection consultancy and guidance to help schools identify their strengths and areas for improvements. In addition, the company provides solutions for schools to overcome areas for improvement based on UAE national and international expectations. This service includes the following aspects:

- Providing **support**, guidance and consultation in the formation of the school self-evaluation **(SEF)** and school development plan **(SIP)**, which are essential documents in the process of school inspection.
- Providing support, guidance and consultation for all levels of learning including Kindergarten to Secondary. This service deepens the understanding of school leadership and staff members of Early Years education using the up-to-date relevant framework and expertise.
- Providing support, guidance and consultation to improve the quality of teaching, which includes professional training sessions, lesson observation and feedback, curriculum adaptation, lesson planning, and department operations. This also includes support for teaching in all key subjects.
- Providing support, guidance and consultation to school senior leadership and management teams and school Governance Board. This comprehensive support covers all school operational procedures and policies such as compliance, wellbeing policies, resources and other logistics issues.
- Providing support, guidance and consultation in benchmarking and using students' assessment data in the school **SEF** and **SIP** and in the planning of lessons. This includes all national and international assessment data such as **EMSAT, PBTS, PIRLS, TIMMS, PISA** and many others.

Professional & comprehensive staff training.

QuaDucation professional consultants are able to provide high professional training for leadership, teachers and management staff members. Training programmes include academic and management aspects of school day to day operations. Below are some examples of what QuaDucation offer to schools:

- Evaluation framework, which includes full evaluation, distance learning, E. Safety, and Early Years evaluation.
- The use of assessment to inform high quality teaching and learning across all grades and curriculum programmes. This also includes national and international assessment benchmarking and use in all sorts of plans.
- The monitoring of teaching and learning which includes planning and conducting effective lesson observations for all grades and provision of constructive feedforward for teachers.
- Advanced teaching methodologies for all grades to meet national and international best practices and expectations.
- Effective leadership performance, which includes governing boards, senior leadership, and middle leadership.

Operations & Management Guidance.

QuaDucation consultants will help schools in the management and operation side, to become more effective. Our services will work on two main aspects:

- **School management consultations**: we will provide the consultation after long assessment for the following services:
  - **Talent Acquisition**: to identify, recruiting, and interviewing individuals suitable for employment with the school and for hiring all staff and personnel necessary for the proper operation and administration of the school.
  - **Human Resources Administration**: to conduct background checks on newly hired School employees, processing and maintaining all personnel records for School employees, and implementing and enforcing workplace rules, policies, and procedures (including disciplinary and termination procedures).
  - **Financial Management**: to be responsible for overseeing all aspects of the financial operation of the school (including budgeting, internal controls, fiscal policies) and provide the best practices for the financial operation process.
  - **Improving School Leadership**: our toolkit designed to help policy makers, practitioners, and relevant stakeholders to analyze their current school leadership policies and practices and develop a common understanding of where and how to take action to Improving School Leadership policy recommendations.
  - **Marketing & Digital Media (MDM)**: our toolkit marketing strategy will enable your school to identify its unique offerings and features that set you apart from your competitors and clearly position your school in the local area, as well as to your target student demographic.

Operations & Management Guidance.

- **School operation consultations**: we will provide the consultation after long assessment for the following services:
  - **Facility & Risk Management Program (FRM)**: Many of the accidents and injuries that occur at schools and colleges can be avoided with a few simple precautions. Our program is designed to help you prevent or reduce damage to your property; injuries to students, employees and visitors and enhance the safety of your school entity.
  - **Operation & Maintenance Program (O&M)**: Operations and Maintenance program (O&M) offers not only strategies for maintaining facilities, but also opportunities for reducing energy costs and increasing energy efficiency at existing schools, regardless of age. QuaDucation will provides detailed and practical guidance on how K-12 school districts can plan and implement enhancements to their current O&M programs that can successfully maintain their facilities while also reducing energy costs.
